

Ironwood Carnegie Library Summer Reading Fun!

2pm Tuesday, June 9th **UNEARTH A STORY SUMMER READING KICK OFF PARTY** It's the beginning of a great summer! Make a dinosaur egg that you can hatch at the end of the summer program...stop by for some fun activities, snacks, and to pick up your reading logs and sign up for programs!

2pm Friday, June 12th **SAND ART!** Most enjoyed by those ages 6 and older **PRE-REGISTER** Unearth your artistic side and create some very cool pieces with sand and your imagination!

2pm Tuesday, June 16th **WORMS' WORLD: Nature Program with the Discovery Center**
What good is a worm? You will learn the parts of a worm, what they do, participate in a worm race, and make a wormery to take your new friend home in. All ages welcome!

10:30am Wednesday, June 17th **WIGGLY WORMS: CUDDLEBUGS STORY TIME** for Babies & Toddlers We'll get wiggly and squiggly with stories, music, movement, and play. Enjoyed most by babies and toddlers, but big brothers and sisters are welcome, too!

3pm Tuesday, June 23rd **ROCKS AND MINERALS!** Presented by the Northwood Wildlife Center Join Mr. Bart as we get to see some very cool stuff...and learn a little too! Enjoyed by all kiddos who are into interesting rocks and things!

1pm Thursday, Jun 25th **Unearth Your Story: Get Together for 6th-8th Grade Writers**
If you love to write poetry...or stories...or want to, let's do it! We'll get together and talk about what you might want to do...and set up some times for a summer writing group!

10:30am Saturday, June 27th **HEAVY EQUIPMENT STORY TIME!**

Let's move some dirt! Snow Country Contracting will be our guests, bringing over their heavy equipment to the library backyard as we share some earth moving story books! Bring along your trucks to play with when we are done! All ages!

2pm Tuesday, June 30th **MOSSY: Story Time and Turtle Project**
Mossy the turtle has a beautiful garden growing on her shell. But what happens when she ends up living in a museum? We'll make some gorgeous garden turtles out of bowls when we are done! Most enjoyed by those 5-11!

Tuesday, July 7th **MICHIGAN SCIENCE CENTER @ THE LIBRARY PRE-REGISTRATION REQUIRED**

6pm **Dissecting Owl Pellets** Dissect owl pellets and reconstruct the skeletons of animals inside to discover what the owls have been eating and learn about food webs and ecosystems. **GRADES 1-3.**

7pm **Dissecting Squid** Students will work in groups to perform a squid dissection with the help of a trained Mi-Sci Educator. Take a close look at the squid's body parts, discover how it eats, moves, and survives, and compare its features to our own. **GRADES 3-8**
